Toyota-Lexus map update 2017-2018 v2

Great news! The brand new map update for Toyota and Lexus navigation systems has been released recently.

The version 2017-2018 v.2 comes with a coverage for the 2nd quarter of 2017 (map data from May 2017) and includes the following countries: Albania, Austria, Belarus, Belgium, Bosnia, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Andorra, Monaco, Germany, Greece, Hungary, Iceland, Ireland, Italy, San Marino, Luxembourg, Macedonia, Malta, Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovakia, Slovenia, Spain, Gibraltar, Canary Islands, Sweden, Switzerland, Leichtenstein, Turkey, Ukraine, United Kingdom.

The update can be applied to all Toyota and Lexus vehicles with GEN7 (from early 2012 to late 2015) and GEN8/9 with a MicroSD (from late 2014 and up to now). The update package for the 7th and 8/9th generations can be installed via USB flash drive or to a MicroSD card, accordingly. The update for the 6th generation (from late 2009 to 2011) requires a direct connection to the HDD and can't be done remotely.

To obtain the update, you need to take a photo of your current map data screen and send it to us with the following information: your name, email, car make, model and year. You can fill out the order form on any page of the [map updates section](#).

Information on prices for the map update is also available on the link above.
