2020 EU map update for Toyota Lexus GEN7 2012-2015

We are pleased to inform that we've received the latest EU map update for Toyota and Lexus models from 2012 to 2015 equipped with the 7th generation navigation system (GEN7 11HDD). The update was released in early June and contains data relevant to the first quarter of this year. Coverage hasn't changed since the last release.

The update is compatible with 2012-2015 Toyota and Lexus models sold in the EU and can be purchased at this link:
