Maps of the Middle East for Lexus vehicles

We are pleased to inform that toyotamaps.online is ready to offer maps of the Middle East for Lexus vehicles for the first time! The update is intended for MicroSD-based systems: Lexus Premium Navigation 13MM and Lexus Multimedia 15MM. It's applicable only to Lexus vehicles made for the Middle East market and won't work with American or European models.

The map data version is 2016-2017 v1 (2016 Q1). Coverage includes: Lebanon, Jordan, Kuwait, Bahrain, Saudi Arabia, Qatar, United Arab Emirates, Oman.

Compatible vehicles:

- Lexus CT200
- Lexus ES300/ES350
- Lexus GS300/GS430/GS450h
- Lexus GX460
- Lexus IS300h
- Lexus LS600h
- Lexus LX570
- Lexus NX300h
- Lexus RC/RC-F

This version is designed for UAE cars and won't work with models sold on American or European markets!

The update package includes: map data (ZIP), step-by-step instruction, license key (file).

Questions are welcomed! Please use the form below to ask anything you want to know.
